Re: How will the new 7D2 Master Schedule affect you?

What does 7D2 mean?

- 7D2 stands for “7 drop 2”. There will be 7 periods in the schedule, but only 5 courses each day. Two periods will be dropped each day of the 7 day rotating cycle. Each class will meet for 3 consecutive days then skip 1 day, then meet for 2 consecutive days, and skip 1 more day during the cycle.

PART 1: Translating your 2012-2013 schedule into 7D2 language

- 1.) Complete the chart below listing your current courses for each class period.
- 2.) USE THE CORRECT CLASS LEVEL CHART!
 - a. If you are a **freshman**, complete the following:

2012-2013 Freshmen Class Periods & Courses	7D2 Class Period Language
1A:	
2A:	
1B:	
2B:	
4/5 or 5/6:	
6/7 or 7/8:	
9:	
10:	

Which period do you have Freshmen Foundations/Financial Literacy/HSPA? _____. Draw a line through that class period all the way across the chart. Next, label the 7D2 language column from the top to bottom with the numbers 1 through 7 SKIPPING the box that you crossed out. See the example below.

PART 2: Using the template to see how 7D2 works

- 1.) Look at the template. You will notice that the days of the cycle are labeled across the top A through G.
- 2.) Look at the columns under each day. You will notice that the boxes are labeled 1 through 7. The boxes represent the class periods.
- 3.) Look back at your completed class periods chart. Take the course in the row labeled "7D2 Class Period Language: 1" and insert its name in each box of the template that is labeled with the number 1. Repeat this step for each class period. Be sure to use the numbers from the 7D2 Class Period Language column.

Note: We have provided sample schedules for you to see how 7D2 works.
