SUMMER PROJECT INFORMATION

May 16, 2017

Dear Parents and Guardians,

Summer recess is a time for students to celebrate their accomplishments, recharge their batteries, and spend quality time with their families. Keeping true to this philosophy, beginning with this year **student summer projects will not be required (for most students) and students will no longer submit optional projects for grading.**

Along with the necessary relaxation, Piscataway Township Schools believe very strongly that students must practice their reading and mathematics skills over the summer. This math work should be targeted to the student's needs and readings should be enjoyable and engaging. These readings/books should be age appropriate and engage your child's interests – from sports, music, dance, mystery, drama, fiction, etc. Please visit your local library for hundreds of selections.

We are excited to provide resources that will align to the student's age/grade for summer practice in both academic areas. These resources will be located electronically at www.piscatawayschools.org under both "Curriculum and Instruction" and the "Parent Center" prior to the end of the school year.

Please note: Students enrolled in any honors and/or AP classes may be required to complete summer work/projects. This work will be at the discretion of each instructor. Students enrolled in these classes will be notified of the requirements directly from the instructors. If you have any questions please e mail info@pway.org with the Subject: Summer Projects.
